SHAKE HANDS WITH GO GUILD AT RECEPTIO

The scathing arraignment of Spence Cole by Civil Engineer C. F. Remington which caused the postponement of the hearing of the petition of the Boston Lowell & Lawrence Electric Railroad Company for permission to build 1,300 feet of elevated track to connect with the Suffolk Square terminal in Charlestown, has caused a political sensation which is being discussed to-day with eager interest and speculation.

Later, Mr. Remington said: "Under the circumstances Mr. Ames should have been more definitely solicited not to act as an arbiter in the matter in which he has already publicly prejudged."

"I want every member of this committee to know that we have notified the petitioners twice, almost a month ago," the Speaker in answer to Engineer Remington's charge.

Mr. Cole, said Mr. Remington, "I do not want to embarrass you by repeating before this committee the statements you made concerning Congressman Ames, but I warrant you that this is not the end of the charge."

"I notify you now, before these witnesses, that you will be given a hearing on Monday at 12 o'clock," said Speaker

PEOPLE DO NOT PAY JEROME TO DEFEND MEMORY OF CRIMINALS

Divine Declares District Attorney Is Paid to Protect People's Rights and Should Hunt Down the Whites of New York.

By Rev. Dr. Madison C. Peters

HERE is no want of interest in the Thaw trial, but, on the contrary, it is getting more impressively human as it drags its slow length along. The central figure has been almost forgotten in the intense excitement aroused by the sun-burning story of the child-wife of the defendant, which has been poured into the ears of the listeners with a dramatic tension seldom, if ever, heard in a court room.

All the withering sarcasms, veiled insinuations, indignations and direct challenges of the versatile district Attorney utterly failed to shake the foundations upon which she built her awful structure of wrong and sin and masculine perfidy, all his barbs of irony, shafts of censure, arrows of vituperation—all tipped with the virus of logical circumlocution and experienced forensic skill—failed to penetrate the armor in which she encased herself.

Jerome frowned, but tried hard to suppress his rising anger. He was a man of stern features, with a high forehead, a straight nose, and a firm mouth. He was a man of the law, and he was a man of the people. He was a man of the law, and he was a man of the people. He was a man of the law, and he was a man of the people.

6,000 WOMEN HEAR CATHOLIC DIVORCE VIEWS

Divorce was discussed from the Catholic point of view by the Rev. Bernard J. Conway, C. S. P., before a large audience of women in the Cathedral of the Holy Cross last night.

The crowd, the largest which has been in attendance since the cathedral began, was so large last night that at an overflow meeting 2,000 were present.

Rev. Conway said:

"My dear ladies, I am sure that you are all here to hear the views of the Catholic Church on the subject of divorce."

It Isn't THE PUBLIC That Is Con-
sidered by Public Corporations. It Is
the Profit. And Killing Is Profitable

We have had a good many indignant letters since the most recent killing on the New York Central Railroad, and the more extensive killing on the rotten steamer of that beautifully named "Joy" Line. Some of our readers want to know why we don't TALK about these things. Other readers want to know why something isn't DONE.

We shall talk about them once more, and for the thousandth time.

The people will be killed in rotten steamers, and crushed to death in light flimsy cars. JUST AS LONG AS THEY STAND IT.

As long as they keep on putting in office men that will allow them to be butchered for the profit of corporations, just so long will the butchery continue.

Those people murdered on the JOY Line steamer were murdered because THE GOVERNMENT AT WASHINGTON, WHICH TALKS SO MUCH DOES NOT INSPECT STEAMERS PROPERLY.

When the hundreds were killed on the General Slocum, DID ANY ONE OF THE RESPONSIBLE PEOPLE GO TO JAIL OR OTHERWISE SUFFER? Not a bit of it. The captain who was COMPELLED to go on that ship in order to earn a living was condemned. But the men that get the bribes to pass such steamers—nothing happened to them.

And that is why this "JOY" boat could go out to sea and kill the people on it. That is why the poor men and women and children could be loaded FOR PROFIT on to a ship, and then have the bottom fall out of the boat and drown them all into the icy water.

IT IS CHEAPER to carry passengers on rotten steamers without bulkheads or iron hulls. That is why it is done.

IT IS CHEAPER to carry people at high speed on flimsy, light cars in subways and on railroads, saving the **PRICE** of heavy steel cars, **AND THAT IS WHY IT IS DONE.**

On the Elevated and in the subway of Boston hundreds of thousands of human beings travel every day IN FLIMSY, INFLAMMABLE WOODEN CARS. The law ought to stop this. The officials elected by the people ought to stop this.

But it is "nobody's business" AND THE WOODEN CARS ARE CHEAPER. When one of those trains at high speed jumps the track, AS IT WILL, there will be many people killed. BUT THAT WILL BE CHEAPER IN THE LONG RUN FOR THE COMPANY.

When one of those cars catches fire, **AS IT WILL**, there will be men and women burned alive. But that in the long run **IS CHEAPER FOR THE COMPANY.**

Every railroad runs its trains at high speed, and carries its passengers in flimsy little wooden cars that smash at the slightest provocation. But can you wonder at this? Our own national government, with

But, can you wonder at this? Our own national government, with its chief talker forever prating about a square deal, TAKES ITS POSTAL EMPLOYEES AND LOADS THEM IN DEATH TRAPS. All the postal clerks carried by our railroad systems travel in cars RENTED TO THE GOVERNMENT FOR TEN TIMES THEIR VALUE, and built so cheaply and dangerously THAT NO INSURANCE COMPANY WILL INSURE THE LIVES OF THE MEN IN THEM.

Wherever there is an accident the postal employees of the richest government in the world are ground to death in a postal car, **BECAUSE THE MEN IN CHARGE OF THE POSTOFFICE ARE OWNED BY THE RAILROADS AND HAVEN'T THE COURAGE TO DEMAND GOOD CARS**

That is a sample of our American system. The DOLLAR rules. The DOLLAR wants a big dividend. AND THE QUICKEST WAY TO GET A DIVIDEND IS TO CARRY MEN IN ROTTEN SHIPS, CARRY THEM IN LIGHT, FLIMSY CARS, DROWN THEM AND BURN THEM, AND GRIND THEM UP OCCASIONALLY.

And, dear American public, this will go on UNTIL YOU WAKE UP.

WASHINGTON, D. C., Feb. 22.—President Roosevelt has come to the conclusion that the gold coins of the United States lack artistic qualities, and he has asked a New York artist to prepare some new designs.

SING a song o' twent'ies—mined and minted gold.
Decked with strenuous bas-reliefs, stirring to behold.
Off with old Dame Liberty—off with all the stars.
Ere the poor old eagle bird, and make a place for Mars.
Let art and action side by side the nation's optics please
By stamping on our yellow cash such frenzied scenes as these:

TEDDY baiting browline bears; Teddy drawing sigh
Intrepidly the dangerous lairs where wrathful bob-cats lie

Teddy roping buffalo; Teddy sitting tight
 Upon the brutal broncho while it bucks with all its might;
 Teddy bidding catamounts and timber wolves "awraunt,"
 That's the kind of money that will fill a long-felt want.

SING a song o' ten-apots, gleaming, glowing discs,
Upon whose face the mustang lopes, the wild coyote frisks.
Let Remington submit designs to circle with the wreath,
And Wolfville's cattle punchers write the Western words beneath.
While on the little fivers it would not be far amiss
To celebrate the stunts of peace, somewhat, perchance, like this:

TEDDY telling Webster and his foolish spelling book,
Teddy telling fathers how to tend the kids and cook,
Teddy showing infants they must shun strong drink and cards,
But drop their men with Krags, first shot at eighteen thousand yards,
Teddy putting 'Friars unreasonably to sleep;
Coin like that true patriots would all be proud to keep.

THERE is one source of real aid in trying to suppress the national crime of child-labor which has not as yet had the consideration it merits.

The work in behalf of the young tellers has come chiefly from grown-up men and women whose hearts were wrung by the tragedy of childhood wasted in cruel industry. The fight has only begun. Sleepy consciences are being awakened, and our nation is slowly feeling the shame of the present.

What will be the result of such federation? A strike or boycott? Not necessarily. The union movement, in its present state, is not in a position to make a tremendous help in all the good movements of the country. It is the duty of the young.

Premature help laid by could in time be a hindrance to the progress of the cause, which the young workers would get out of the facts and by their co-operation.

To this class of wage-earners the hand of friendship must also be extended; to their needs the attention of the right-hearted must go.

These workers are old enough to justify an appeal to their own sense of
